GLAD GAY ACRES

E. BANE SNYDER

SNYDER AT VIRGINIA AVE.

HAGERSTOWN, MD.

# GREETINGS

Dear Glad Fan:

It gives me much pleasure to present our 1950 catalog of good Glads for your careful consideration. Also, to take this opportunity to THANK all who sent their orders and letters of appreciation.

We have finished digging our nineteenth crop of bulbs, and this is the eighth annual catalog we have issued. I am happy to say that our bulbs are a fine lot again this year, and fully up to our high standard. We can again live up to our motto and send you "BULBS AS GOOD AS THE BEST, AND BETTER THAN THE REST."

During all the past years we haven't had a single complaint regarding the quality of our bulbs - a record that we are indeed proud of.

Our bulb sales have shown a substantial gain year after year, and last year's (1949) business was more than double that of 1948 - THERE IS A REASON.

WON'T YOU GIVE US A TRIAL? - WE GUARANTEE SATISFACTION!

## *OUR BUSINESS POLICY:*

We do not substitute unless instructed to do so. On orders totaling less than \$2.00, please add 15¢ extra to cover cost of packing and postage. All retail orders totaling \$2.00 or more will be delivered free anywhere in the United States. Wholesale orders, f.o.b. Hagerstown, Maryland. No bulblet orders accepted after April 1st. All orders subject to prior sale. We promptly acknowledge all orders received. All orders to be paid in full before shipment. Where items are quoted 2 for 25 cents or 2 for 30 cents, etc., please do not order a smaller amount at a lower price. However, please be assured that no order is too small to receive our careful attention.

## *WHOLESALE PRICES:*

10 bulbs will be sold at 8 times the price per each  
100 bulbs will be sold at 8 times the price per 10  
5 bulbs at the 10 rate - 25 bulbs at the 100 rate

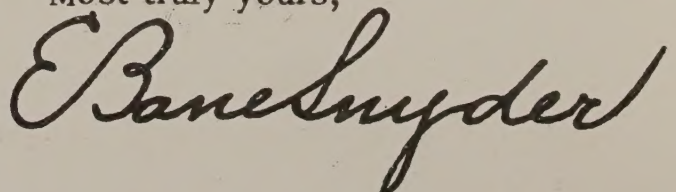

Write us for prices on larger lots - or send us your want list for quotations, stating quantity and size of bulbs interested in.

## *EXTRAS!*

We have always given generously in both count and extras. We believe this is much better than figuring discounts and we are sure that you will be well pleased.

Why not pay us a visit; we are always glad to receive visitors, shake their hand and show them through our plantings. We have 17 acres within the city limits and are easy to locate. Greatest number of varieties should be blooming between August 15th and September 15th; however, you will always see something worth while from August 1st on.

Most truly yours,

# MELLOW MOON

## Our 1950 Introduction

**MELLOW MOON** - Class 420 (King Midas x Leading Lady) Seedling KMPC8.

A beautiful light orange, nearly self color, for which the name **MELLOW MOON** is a natural and best describes its mellow glowing color. Truly a new era in golden color which is entirely different.

Opens eight good facing well attached  $4\frac{3}{4}$  to  $5\frac{1}{2}$  inch florets with good substance on a 18 to 20 bud 28 to 30 inch flower head with six buds showing color. Medium very stiff spike, grows 60 inches and more tall. Florets are nicely ruffled and waved. Opens to tip of spike when cut in tight bud.

Produces large amount of bulblets which germinate easily making fine-looking bulbs. Tops for both exhibition and commercial growing.

Blooms in 80 to 85 days.

**MELLOW MOON** so far has only been entered in three shows. Under seedling number KMPC8 it won a blue ribbon in the three spike seedling class at Madison, Wisconsin, show 1948. During 1949 at the Maryland State Show, Havre de Grace, it received an A rating in the seedling class, and a blue ribbon in the basket class. At the Eastern International Show, Binghamton, N. Y., under seedling number it won a blue ribbon in the basket class (as per picture on front). **MELLOW MOON** was the only entry at the Maryland show that was spotlighted by the show officials.

Judging from the great number of favorable comment both at the Maryland and Binghamton shows, **MELLOW MOON** is sure to go over in a big way.

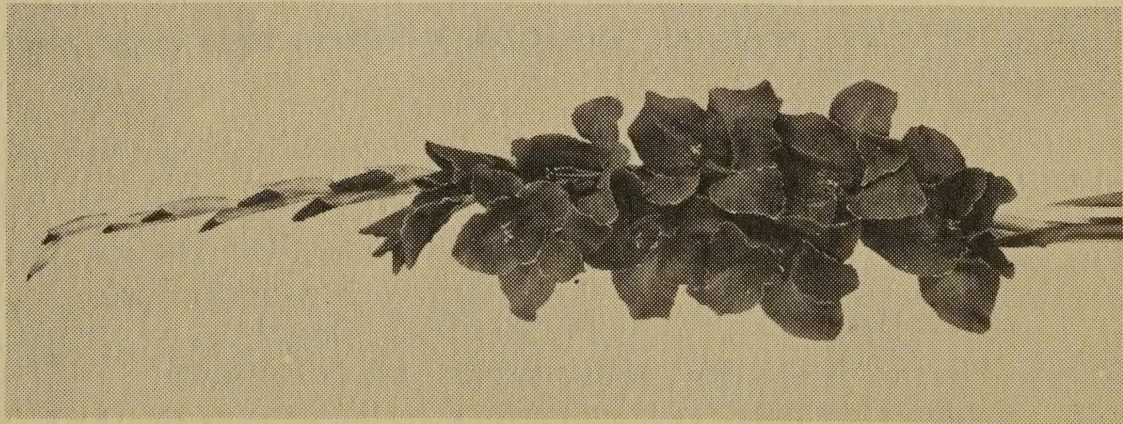

Prices during 1950 and 1951:

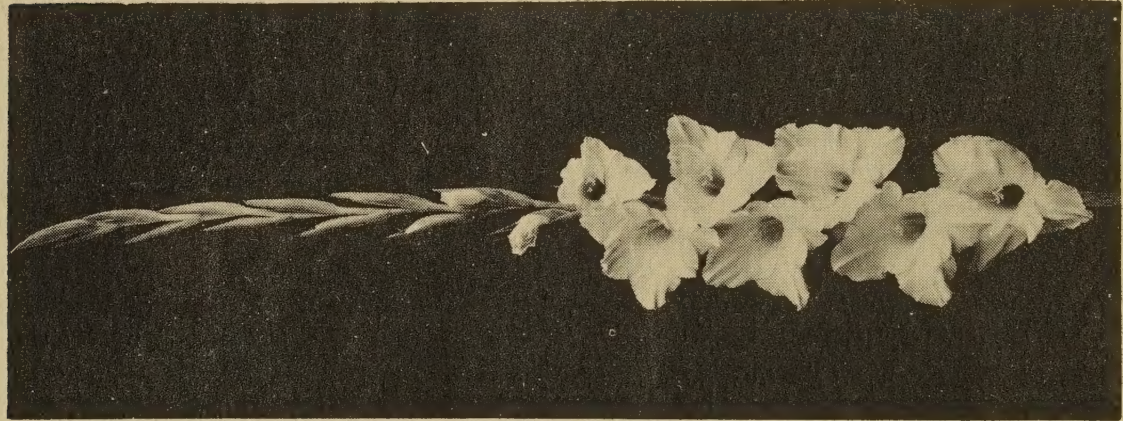

Per each: L - \$3.00; M - \$2.00; S - \$1.50

Bbts.: 1 for .30; 10 for \$2.40; 100 for \$19.00

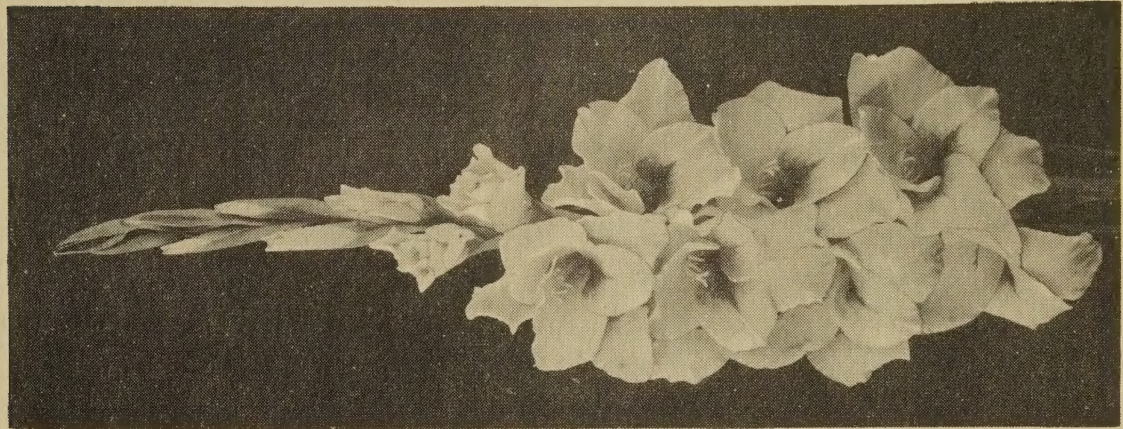

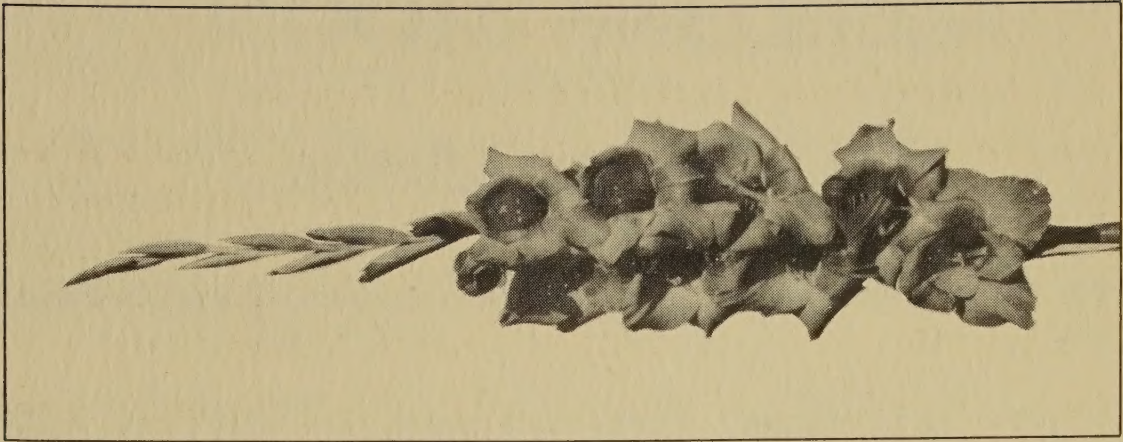

**ANTIETAM**

**SNOWSHEEN**

**SILVER STAR**

**ORANGE PRINCE**

## OUR PREVIOUS INTRODUCTIONS

### ANTIETAM

(Rewi Fallu x (Vagabond Prince x Beacon)

Introduced 1948 - Class 454 - A beautiful deep glistening red with velvet appearance. Opens eight good facing, closely attached 4½ inch florets with good substance on a 20 bud, 25 inch flower head with all remaining buds showing color. Very stiff steel-like spike 60 inches or more tall. Good producer of bulblets which germinate easily. Blooms in 90 days.

ANTIETAM is a real glad for both show table and commercial growing; cuts nice large spikes from medium and small bulbs. ANTIETAM opens fine when cut in bud and is a good keeper; one of the very few varieties that doesn't sun-cook or rain spot - and no crooks!

Prices: Large - \$2.00; Medium - \$1.50; Small - \$1.00

Bbts: 1 - 20¢; 10 - \$1.60.

10 bulbs will be supplied at 8 times the price per each

5 bulbs or bbts. at half the 10 price.

Write for quotations on larger amounts, or growers specials.

### SNOWSHEEN

**The White that is Different!**

SNOWSHEEN is a nicely ruffled pure white without any other color, stigma and stamens slightly cream - 6 good facing 4 inch wide open triangular florets and 4 showing color, 20 buds on a 25 inch flower head, stands 54 inches or more in field, medium thin very stiff stem, strong healthy grower, medium broad foliage makes a beautiful bulb that is a good producer of bulblets which germinate readily. Bulbs do not split as some whites do. SNOWSHEEN is tops for both exhibition and commercial use. Blooms in 75 days.

A consistent winner ever since it was first shown in the seedling class.

Prices: Large - 1 for 15¢, 10 for \$1.20; Medium - 3 for 30¢, 10 for 80¢;  
Small - 6 for 30¢, 10 for 40¢; Bulblets - 40 for 25¢, 100 for 50¢.

Write for prices on larger quantities.

§ § §

*"Last year I bought SNOWSHEEN, and the bulbs were very good. I received as extra one bulb of ANTIETAM (this is it) it is beautiful. Please quote on.....SNOWSHEEN, and growers special and bulblets of ANTIETAM.*

*L. A. W.--Illinois*

*(Note: - Order has been received for both Snowsheen and Antietam.)*

*"The bulbs I purchased of you last spring were all you claimed them to be. I had fine PICARDY for first time in many years. SNOWSHEEN was very nice. Enclosed list I would like quotations on (1050 bulbs)."*

*B. B. B.--Mass.*

## SILVER STAR

### One of our 1945 Introductions --

A large formal pure white with bright purple shading to lavender blotch, floret size 5 to 6 inches with slightly ruffled edge, 6 to 8 open and as many showing color on a heavy stiff spike with 16 to 18 buds, flower head 25 inches, grows 55 inches high and blooms in 90 days. Tall healthy grower, extra heavy producer of medium size bulblets that germinate readily. Top notch exhibition and also a good commercial.

**SILVER STAR** does well everywhere from western Canada to Florida and has already had a fine record as a blue ribbon winner - was Grand Champion for Mrs. S. C. Littlejohn at Gaffney, N. C., show 1948.

Prices: Large - 1 for 20¢, 10 for \$1.60; Medium - 1 for 15¢, 10 for \$1.20;  
Small - 3 for 30¢, 10 for 80¢; Bulblets - 50 for 50¢, 100 for 80¢.  
½ pint, pint, quart, peck, etc., prices on request.

## ORANGE PRINCE

(Sport of Vagabond Prince)

Introduced 1945. Same growth, floret size and productiveness as Vagabond --color is a dazzling orange slightly on the red side with the same flame throat marking as Vagabond Prince. Boy, what a color! You can spot **ORANGE PRINCE** at a glance among others blooming anywhere in a five-acre field; doesn't burn in hot sun either. My prediction that **ORANGE PRINCE** would become one of the leading varieties has been justified. Don't lose valuable time; get started with **ORANGE PRINCE AND WIN.**

Prices: Large - 1 for 20¢, 10 for \$1.60; Medium - 2 for 30¢, 10 for \$1.20;  
Small - 3 for 30¢, 10 for 80¢; Bulblets - 50 for 50¢, 100 for 80¢.

§ § §

*"Your ANTIETAM did very fine for me...nice long flower head, straight stems and quite good placement."*

*S. E. T.--West Virginia*

*"Your's were the best bulbs and produced the finest flowers I have ever had. I didn't find a diseased bulb in the whole lot."*

*Mrs. S. C. L.-- S. Carolina*

*"I want to tell you how well pleased I am with your bulbs and the blooms they are now producing. The bulbs arrived in wonderful condition."*

*If you have any bulbs in storage yet I would like to have two or three thousand for late ones. **ORANGE PRINCE** is really a prince - cutting fine. **SNOWSHEEN** is doing fine and the best all white I have seen. Had my first **SILVER STAR** yesterday and like it too. Some of the other varieties haven't bloomed yet but all look good."*

*Mrs. W. B. C.--Virginia*

*(Note: - First shipment consisted of 20,000 bulbs.)*

## OTHER GOOD VARIETIES YOU SHOULD GROW

Class		Per	Large	Medium	Small	Bulblets	
						Per	
366	ABIGAIL (Myers) Aglorified Minuet, opens 7 or more 4½ inch florets on tall straight spike. A good propagator.	1	.50	.35	.20	10	.25
						100	2.00
536	ALGONQUIN (Palmer) A fine scarlet, opens 8 or more large ruffled florets, Has won many blue ribbons, also a good commercial.	3	.25	5 - .25		100	.25
		10	.80	.50	.30

		10	.80	.50	.30	100	.40
						½pt.	2.50
440	ETHEL CAVE COLE (Cave) Large light pink, 8 open. One of the best cut flowers.	3	.25	4 - .25			
		10	.70	.50	.30	100	.35
400	FAIR ANGEL (Hatch) Fine big ruffled cream. Exhibition type. Winner of many blue ribbons.	3	.25	5 - .25		50	.25
		10	.65	.40	.25	100	.40
442	FRIENDSHIP (Fischer) A beautiful shade of pure pink, blending to a waxy white and cream throat. Very early.	1	1.00	.75	.50	4	.25
		10	8.00	6.00	4.00	10	.50
530	GLAMIS (Palmer) Beautiful clear light rose with white throat. Nicely ruffled pointed petals. A real beauty.	3	.30	4 - .25		25	.25
		10	.80	.50	.30	100	.60

440	GRETA GARBO (Pfizer) Fine large soft rose pink. Tall, strong grower. A real Glad.	3	.30	4 - .25		50	.25
		10	.80	.50	.30	100	.40
536	INTRUDER (Graff) Giant light red. Up to 10 open on a 60 inch spike. Good show record.	1	.25	2 - .40	2 - .30	10	.25
						100	2.00
506	LEADING LADY (Johnston) This beautiful cream sport of Picardy was the top show winner again during 1949.	3	.30	4 - .25		35	.25
		10	.80	.50	.30	100	.50
501	MARGARET BEATON (Twomey) Large pure white with orange scarlet blotch. Many open. Another beauty with a fine show record.	3	.30	5 - .25			
		10	.80	.40	.25	100	.30
440	MARYLAND MAID (E. B. Snyder) Clear pure pink cream throat and white mid-ribs. One of our 1945 introductions. Formal type. Opens 6 to 8 - 4½ inch florets on 18 bud flower head. Blooms in 75 days.	1	.25	2 - .30	3 - .30	40	.25
		10	2.00	1.20	.80	100	.50
420	MELLON MOON - Our 1950 Introduction.	See page 2 for description and prices.					
460	MISS WISCONSIN (Krueger) Claimed by many to be the best light rose pink. 8 open on good straight spike.	1	.20	2 - .25	3 - .25	15	.25
						100	1.00
416	MOONSTONE (Canine) Sport of Picardy. Good grower and propagator. A beautiful Glad. The name is a natural.	2	.20	4 - .25			
		10	.75	.50	.30	100	.50
582	MRS. C. W. GANNETT (Chamb.) Probably still the best giant smoky to date. Slow propagator.	1	.30	.20	2 - .25	10	.25
						100	2.00
532	OGARITA (Wilson) Large very tall salmon with cream throat.	3	.30	4 - .25	5 - .25	25	.25
		10	.80	.50	.40	100	.75
324	ORANGE PRINCE (E. B. Snyder) See page 5.	1	.20	2 - .30	3 - .30	50	.50
		10	1.60	1.20	.80	100	.80
410	OREGON GOLD (Majeski) Fine tall large ruffled light yellow. Good keeper.	3	.30	4 - .20			
		10	.80	.40	.25	100	.35
506	ORIENTAL PEARL (Carlson-Puerner) The giant of the creams. Strong grower. Good propagator. Claimed to be the wonder Glad.	1	.20	.15	.10	15	.25
		10	1.60	1.20	.80	100	2.00
440	PHANTOM BEAUTY (Bastian) Lovely clear blush pink that opens 9 to 12 five-inch blooms; perfect placement. A very outstanding show glad and a fine grower. Also recommended as a commercial.	1	.50	.35	.25	10	.50
530	PICARDY (Palmer) If you can't grow those good tall prize winning spikes like you once did - try some of our special strain which we have been selecting for years. Disease free bulbs that really produce.	3	.25			100	.35
		10	.75	.50	.30	½pt.	1.00
		100	6.00	4.00	2.40	1pt.	1.75
						1qt.	2.50
440	PINK RADIANCE (Quackenbush) Pure light pink without markings except a touch of carmine deep in the throat. Opens 6 to 10 florets on a spike carrying from 16 to 18 buds. Excellent placement and attachment. A good show variety and commercial cut flower. Midseason.	2	.25	3 - .25		40	.25
		10	1.00	.60	.40	100	.50

401	SILVER STAR (E. B. Snyder) See page 5.	1	.20	.15	3 - .30	50	.50
		10	1.60	1.20	.80	100	.80
500	SILVER WINGS (Ritsema) Another creamy white sport of Picardy. A little whiter and more ruffled than Leading Lady.	3	.30	4 - .25			
		10	.80	.50	.30	25	.25
						100	.75
400	SNOW PRINCESS (Pfitzer) Large white, has a good show record; also a good commercial.	3	.25				
		10	.75	.50	.30	100	.25
300	SNOWSHEEN (E. B. Snyder) See page 4.	2	.30	3 - .30	6 - .30	40	.25
		10	1.20	.80	.40	100	.50
432	SPIC & SPAN (Carlson) 80 days. A tall, ruffled pink that opens ten with eight more showing color. The placement is excellent and the spikes are tall and straight. It has won many Grand Championships and is a fine commercial.	1	.80	.70	.60	2	.20
		10	6.40	5.60	4.80	10	.80
413	SPOTLIGHT (Palmer) The best all purpose yellow. A deep yellow with scarlet blotch. A beauty. Don't pass this one up.	3	.30	4 - .25		35	.25
		10	.80	.50	.35	100	.50
417	SUNSPOT (Roberts) Light apricot-buff with rose spot in throat. 7-9 open, 5 inches in diameter, ruffled. Propagates well, germinates nearly 100 per cent and wins consistently. Many championships.	1	.75	.50	.30	3	.20
						10	.60
						100	4.50
416	SUSQUEHANNA (Herridge) Beautiful apricot buff with cream throat. One of my favorites and one you should grow.	3	.30	4 - .25		35	.25
		10	.80	.50	.30	100	.50
366	WEDGEWOOD (Fischer) Fine clean blue lavender with pure cream throat. Very ruffled. One of the choicest varieties.	1	.35	.25	2 - .30	10	.25
		10	3.00	2.00	1.20	100	2.00

§ § §

## GLADIOLUS CULTURE

**Note:** The following instructions apply to average normal growing conditions; should unusual soil or climatic conditions prevail, the amateur gladiolus grower should consult his County Agricultural Agent or a local gladiolus grower.

**Stock for Planting:** Secure healthy stock from a reliable source specializing in quality gladiolus bulbs. Look over all Bulbs and discard any that show signs of rot. Maximum size blooms usually are obtained from large plump bulbs; better results can be expected from young high-crowned bulbs of at least 1-inch in diameter than from older and larger "thin" bulbs. As a safe-guard against thrips all bulbs, regardless of source, should be dusted with DDT (5%) as soon as received by the purchaser. *(We guarantee our bulbs to be healthy and free of thrips when you receive them, but if they are placed in close proximity to bulbs already infested, they may become infested also.)*

**Dips:** Dips control disease. Dip your own bulbs and those you buy, before planting. Two proven formulas: New Improved Ceresan, one ounce (approximately 4 level table-spoons) plus 3 teaspoon measures duPont (Grasselli) Spreader Sticker or Dreft to 3 gallons water. Mix N.I.C. in sauce dish with Spreader Sticker, use wooden ladle (keep fingers out, poison to skin in this concentrated form), then add to 3 gallons water. (Okay for hands to be in this weakened solution.) Soak bulbs 15 minutes, plant in damp soil same day. Bulblets not peeled, 30 minutes, peeled, 15 minutes. Plant same as above. Another dip: Lysol, one and a half tablespoonfuls per gallon of water. Soak bulbs 3 hours, bulblets 3 hours. Plant same day.

**Planting:** Plant when your trees are leafing out and soil has warmed, and can be planted anytime till July 1st. Almost any soil will do if well drained. Plant in full sunshine, in rows as you would corn. Rows at least 18 inches apart. Plant large bulbs 4 to 6 inches deep, depending on soil. Light soil deepest, smaller bulbs in proportion. Bulblets one and a half inches deep, one inch apart in rows, not closer. Plant Gladiolus away from trees and buildings. Rotate plantings. Plant in same ground but once in four years. Any soil that will grow a good crop of vegetables or weeds is good for Gladiolus.

**Fertilizing:** Fertilize--yes and no, use your own judgment but never plant Gladiolus bulbs where they might touch green manure (any kind), or come in contact with fertilizer. Novice growers better let fertilizers alone.

**Cultivation:** Cultivate once a week not deeper than 2 inches. If it rains, repeat after soil becomes workable (so it will not clod). Keep your garden free of weeds, they take the same water and feed on the same elements as your Gladiolus.

**Watering:** After fourth or fifth leaf appears (four or five weeks before blooming), water once a week or ten days, one inch of water, if you don't get rain to that amount. Set a flat container in your patch. One inch of water in the container indicates one inch of water for that period. After bud spikes appear, same amount of water twice a week.

**Spraying:** Dust with D.D.T. 5% about once every ten days after plants are up 6 to 8 inches, or spray with 50% wettable D.D.T. one oz. in 3 gal. water. Repeat after a rain. Both control Thrips. Best time to dust, in evening when wind is down. Dust should be like light fog. If light breeze let dust float over patch, start to windward. Spraying can be done anytime during the day.

**Blooms:** Cut your blooms preferably in the morning when one or two florets are open. Use a small sharp narrow blade, run down spike, then cut through with a slanting cut. Be sure to leave four or five leaves on plant to mature bulb. Place spike in water, fresh water every day, cut off half inch of spike each day. Spike will open to tip. Use tips for floating table decorations, corsages. To keep for shows, place in cool basement; must have some ventilation.

**Digging:** Bulbs blooming in July can be dug six weeks after blooming. Those blooming in September will mature in four weeks. Dig plantings before ground freezes. Dig with a fork, lift out plant, cut top off flush with bulb, place in shallow trays (boxes) not over four inches deep. (Burn tops when dry.) Do not leave in hot sun, protect from frost. Dust with 5% D.D.T. After drying three to five weeks, remove old bulb from new. Burn old bulb. Do not remove husk from new bulb. When clean and dry, dust again thoroughly.

**Storing:** Store in cool, dry part of basement, 35° F. to 45° F. is about right. Bulbs stored under moist conditions will be more susceptible to disease and storage rot.

For further information and up to the minute developments and methods, join your local or state society and/or

The New England Gladiolus Society - Dues \$3.00

The North American Gladiolus Council - Dues \$1.50

*For your Convenience*

If you wish to include with your order for bulbs - dues in either or both of the above societies, we will gladly see that your memberships are properly placed.

*"Enclosed find my Glad order. Many thanks for the very nice bulbs and extras you sent me last year. All grew and bloomed fine.*
